1. Property & Vastu Summary

Input requirement

A real Vastu report requires the property plan, north direction, entrance and room placement. This demo explains the analysis framework rather than inventing a defect.

What to Watch

What to watch: the strongest repeated chart themes matter more than isolated placements. The interpretation becomes more reliable when calculation facts, authorised rules and current timing point in the same direction.

Practical Action

Practical action: turn the interpretation into one or two concrete behaviours, review progress over time and avoid treating a tendency as a guaranteed outcome.

2. Direction & Entrance Analysis

Main entrance

The live report evaluates the actual entrance direction and its relation to the plan. No direction is claimed without an input.

3. Eight Zones Analysis

Zone framework

North, North-East, East, South-East, South, South-West, West and North-West are assessed using the authorised Astro-Vastu mappings.

6. Planet-Direction Relationship

Mapping

Planet-direction and object mappings are applied only where the authorised rule set supports them.

What to Watch

What to watch: communication, shared goals, family expectations and the ability to handle responsibility together are more useful indicators than a single planetary placement. Timing should be presented as a window only when the authorised marriage rules are activated.

Practical Action

Practical action: discuss long-term expectations openly, reduce assumption-based decisions and judge compatibility through consistent behaviour as well as traditional astrological indicators.

7. PACE Analysis

Method

Position, Aspect, Conjunction and Exchange are used as the structured analysis framework where source rules support them.

10. Personalized Remedies

Remedies

Safe practical and devotional remedies are prioritised. Structural changes should be reviewed by an appropriate professional.
